Subject to Developer's completion of the application process identified by Yahoo and approval and acceptance of Developer by Yahoo, Developer will be required to register the Developer Application on the Yahoo Developer Network (YDN), in the manner communicated by Yahoo in order to receive an application identification ("**Application ID**") and OAuth 2.0 credentials. This Application ID will enable Developer to access the API during the Term and in the Territory.
- b. During the Term and in the Territory, subject to the terms of this Agreement, Yahoo grants Developer a limited, royalty-free, nonexclusive, nontransferable, nonassignable license (without right of sublicense) to use the API and any related supporting materials and documentation provided by Yahoo to Developer (collectively, "**Yahoo Materials**") solely for purposes of enabling Developer Application to retrieve certain information associated with the Yahoo Fantasy Database therefrom solely in accordance with the Approved Use Case specified on the Cover Page and strictly as required in the API documentation at <http://sports.yahoo.com/developer> and any other policies and guidelines communicated by Yahoo from time to time (collectively, the "**Documentation**").

Developer's use of the Yahoo Materials and the Yahoo Fantasy Information is also subject to the Yahoo **"Terms of Use"** and the Yahoo Privacy Policy, which are each incorporated herein by reference and can be found at <https://legal.yahoo.com/us/en/yahoo/terms/otos/index.html> and <https://legal.yahoo.com/us/en/yahoo/privacy/index.html>, respectively. Yahoo reserves the right to update and change, from time to time, these Terms of Use and Privacy Policy. Yahoo may change these Terms of Use and Privacy Policy by posting new versions, and use of the Yahoo Materials after such change constitutes acceptance of such changes.
- ii. Developer shall not use the Yahoo Materials or Yahoo Fantasy Information in any manner or for any purpose that violates any right of any person, including but not limited to intellectual property rights, rights of privacy, or rights of personality, or in any manner inconsistent with Yahoo's Terms of Use.
- iii. Developer may not use the Yahoo Materials to build, operate, or support any application, service, or content that is illegal, deceptive, harmful, or that violates applicable law or third-party rights. This includes, without limitation, uses involving: malware or other harmful code; fraud, counterfeit, or infringing goods; regulated or restricted goods (including drugs, weapons, or hazardous materials); hate, harassment, or exploitation; unauthorized surveillance or security circumvention; gambling or unlicensed financial services; or any activity requiring a license or regulatory approval that the Developer does not hold. Rate Limits may include limits on request volume, frequency, concurrency, or other measures of API usage. Yahoo may monitor API usage and throttle, suspend, or restrict access to the APIs if Developer exceeds Rate Limits or engages in usage that may impair performance of the API. Developer is responsible for designing the Developer Application to handle rate limiting, including implementing appropriate retry logic, exponential backoff, and error handling consistent with the Documentation. [Yahoo may, but is under no obligation to, permit usage in excess of the Rate Limit subject to the parties' mutual agreement upon additional written terms and conditions, including without limitation, additional economics payable to Yahoo.]
- vi. Developer may create only a single user account, and may not create any script or automated tool that attempts to create multiple API accounts or exceed and circumvent Rate Limits. Developer may not use the API in a manner that otherwise exceeds reasonable request volume or loads on the Yahoo Fantasy Database constitutes excessive or abusive usage of the Yahoo Fantasy Database, or otherwise fails to comply or is inconsistent with the Yahoo Materials as determined by Yahoo in its sole but reasonable discretion.
- vii. Developer shall not reverse engineer, modify, decompile, separate the Yahoo Fantasy Information from the API, or otherwise alter the API or the Yahoo Fantasy Database. Developer shall not store, cache or index the Yahoo Fantasy Information.
- viii. Developer Application shall not (a) contain, be bundled with, or otherwise enable any viruses, Trojan horses, trap doors, back doors, worms, time bombs, cancelbots, adware, spyware or other computer programming routines that will damage, detrimentally interfere with, surreptitiously intercept or expropriate any system, data or personal

information; (b) contain any material, product or services that violate or encourage conduct that would violate any criminal laws, any other laws, or any third party rights; (c) incorporate any Publicly Available Software, in whole or in part, in a manner that may subject the Yahoo Network, in whole or in part, to all or part of the license obligations of any Publicly Available Software. As used herein, the term “**Publicly Available Software**” means any software that contains, or is derived in any manner (in whole or in part) from, any software that is distributed as free software, open source software or similar licensing or distribution models; and that requires as a condition of use, modification or distribution that such software or other software incorporated into, derived from or distributed with such software: (1) be disclosed or distributed in source code form; (2) be licensed for the purpose of making derivative works; or (3) be redistributable at no charge.

- ix. Developer shall not use the Yahoo Materials or Yahoo Fantasy Information in any manner that violates any applicable league guidelines, rules, or other regulations of Major League Baseball, the National Football League, the National Basketball Association, the National Hockey League, or any other applicable sports league (each, a “League”), as promulgated by the applicable League from time to time.
- x. Developer shall not use the Yahoo Materials or the Yahoo Fantasy Information to compile and present complete boxscores, complete statistics for any players in the League, all players on any League team (unless all such players are also on a User’s fantasy team) or all players in a fantasy league.
- xi. Developer shall not use the Yahoo Materials or the Yahoo Fantasy Information in a product or service that competes with products or services offered by Yahoo.
- xii. Developer shall process Yahoo Fantasy Information (including any Historical Data, as defined herein) solely as necessary to provide the Developer Application in accordance with the Approved Use Case, and for no other purpose. Developer shall not use Yahoo Fantasy Information for profiling unrelated to the Approved Use Case, for creating or enriching independent datasets or user profiles, for training or improving any models or algorithms (including AI Tools) except as expressly permitted in this Agreement, or for any advertising, targeting, or resale purposes without Yahoo’s prior written consent.

3. Assistance; Network Liability, Security and Disruptions; AI Tools.

- a. Yahoo shall have no obligation to provide any technical assistance to Developer hereunder.
- b. Yahoo reserves the right to update or enhance the API, Rate Limits, the Yahoo Fantasy Database, or the Yahoo Network (each a “**Modification**”) at any time, in Yahoo’s sole discretion. Developer acknowledges that such Modifications may affect the Developer Application and may require Developer to make changes to the Developer Application to continue to be compatible with the API.
- c. In the event that, and for so long as, Yahoo determines that any part of the Developer Application or the operation thereof is in material violation of this Agreement or otherwise exposes Yahoo or any Yahoo service, including without limitation the Yahoo Fantasy Database or Yahoo Network, to liability, disruption or security risks (“**Disruption**”), Yahoo shall notify Developer of such Disruptions and request that Developer remedy such Disruptions. Yahoo shall have the right to immediately suspend access of all or any portion of the Developer Application causing such Disruptions (and only to the extent necessary to alleviate such Disruptions) to the Yahoo Fantasy Database or Yahoo Network or require

Developer to do so. Developer shall reasonably cooperate with Yahoo to remedy any such Disruptions.

- d. Developer shall implement and maintain security processes and policies for Developer Application consistent with prevailing industry standards.  - e. **AI Tools.** In the event that the Developer Application includes (directly or indirectly) tools, features or functionality that utilize generative artificial intelligence or other data models trained by machine learning (collectively “**AI Tools**”), all Yahoo Materials, Yahoo Fantasy Information or Yahoo Confidential Information entered into the Developer Application for processing by the AI Tools (“**Input**”) and all of the output returned by the AI Tool (“**Output**”) shall belong exclusively to Yahoo. Developer shall at all times: (a) not use, and not permit any third party to use, any Yahoo Materials, Yahoo Fantasy Information and Yahoo Confidential Information for the purpose of training, grounding, or otherwise improving any AI Tool; (b) delete all Input and Outputs generated within the Developer Application upon request and/or at reasonable and regular intervals (in no event longer than 30 days); and (c) comply with all applicable laws, rules and regulations, including those pertaining to data privacy and protection.
4. **Ownership.** The Yahoo Materials, Yahoo Network, Yahoo Fantasy Database, Yahoo Look and Feel, and Yahoo Fantasy Information (the “**Yahoo IP**”) shall remain the exclusive property of Yahoo, and except as expressly set forth in Section 2 above, this Agreement and the Terms of Use do not grant any right, title or interest in any intellectual property owned by Yahoo. Yahoo's rights apply to the API and all output and executables of the API, excluding any software components developed by Developer that do not themselves incorporate the API or any output or executables of the API.
 5. **Yahoo Fantasy Information.** Developer shall display Yahoo Fantasy Information only within the Developer Application and in accordance with the Approved Use Cases specified on the Cover Page. Developer shall display on any interface displaying the Yahoo Fantasy Information the attribution required by Yahoo on the Cover Page.
 6. **Term and Termination.** The Agreement will commence on the Effective Date and continue until terminated as set forth herein. Either Party may terminate the Agreement for a material breach which remains uncured within five (5) business days after receiving written notice of the breach. Yahoo may terminate the Agreement immediately for any reason or for no reason by providing written notice to Developer. Developer may terminate the Agreement by discontinuing use of all or any of the Yahoo Materials and contacting Yahoo Fantasy Customer Care to notify Yahoo of such termination. As soon as practicable following any termination or expiration of this Agreement (and in no event more than ten (10) business days thereafter), Developer agrees to uninstall and delete from its computer systems and servers all copies of the Yahoo Materials and Yahoo Fantasy Information and to destroy or return to Yahoo all hard copies thereof, including any analyses, test results or other data created in connection with or while using the Yahoo Materials or Yahoo Fantasy Information. Any obligations which expressly are to continue after termination, cancellation or expiration of the Agreement shall survive and remain in effect. All licenses hereunder shall immediately terminate upon expiration or termination of this Agreement.
 7. **Representations and Warranties.** Developer shall ensure that it possesses all permissions, rights and licenses to the Developer Application, and that Developer has the full corporate right, power and authority to enter into this Agreement and to perform the acts required of it hereunder. Developer warrants to Yahoo that the Developer Application, the operation thereof, any other content or data provided via the Developer Application,

(i) shall not be used in any manner that would disparage or discredit Yahoo; (ii) shall comply with all applicable laws, rules and regulations, including without limitation data security, spyware or adware, and privacy laws (and that collection of any data from Users is in compliance with Developer's clearly and conspicuously stated privacy policy); and (iii) shall not infringe any third party's intellectual property rights, including without limitation rights of performance, publicity, copyright, trademark or patent. YAHOO MAKES NO REPRESENTATIONS OR WARRANTIES THAT ANY OF THE FOREMENTIONED ARE FREE OF ERRORS, BUGS OR INTERRUPTIONS, OR ARE RELIABLE, ACCURATE COMPLETE OR OTHERWISE VALID. DEVELOPER WILL BE SOLELY RESPONSIBLE FOR ANY DAMAGE THAT RESULTS FROM THE USE BY DEVELOPER OF ANY MATERIALS SUPPLIED OR ACCESSED HEREUNDER.

If you are a California resident, you waive your rights under California Civil Code § 1542, which states, "A general release does not extend to claims which the creditor does not know or suspect to exist in his favor at the time of executing the release, which if known by him must have materially affected his settlement with the debtor." Developer shall not disclose any information to third parties and shall not use any Confidential Information other than in the course of its

permitted activities hereunder.

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, Yahoo Inc. (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.
